ORGANIZATION**

អង្គការទីកន្លែងអាស៊ីហ្គា

OPENING DOORS FOR CAMBODIAN CHILDREN AND THEIR FAMILIES

OUR STORY

Aziza's Place was founded on 14 February 2007 in honor of the memory of Aziza Ghori to address a heartfelt need to help children, especially girls, and their families offering caring, holistic, and effective opportunities and support.

Our Founding Vision was shaped by years of volunteering at NGOs in Phnom Penh where too many organizations prioritized short term metrics for "success" at the expense of their Beneficiaries.

Our vision is much longer term, to deliver generational impact in programs that transform outcomes for Beneficiary children and their families, to help them build lives out of the confines of poverty.

HOW TO SUPPORT AZIZA'S PLACE

To help us help more generations of Cambodian children and families you can support us in different ways.

OUR VISION

Aziza's Place builds the advantages of early engagement with its Beneficiaries through long term programs, to access opportunities and develop life skills to achieve economic self-sufficiency, and to help their families and communities benefit from Beneficiary progress, support and outreach.

OUR MISSION

Enable Aziza's Place Beneficiaries to reach maximum potential.

OUR VIRTUES

Respect, Honesty, Fairness, Opportunity, Caring.

OUR BENEFICIARIES

Our First Generation Beneficiaries (20+) have all grown into responsible young men and women, speaking fluent English, holding well-paying jobs, taking care of themselves and generations in their families, working for their communities, and mentoring our younger generations.

Our Second Generation includes nine (9) current Beneficiaries in Secondary and High School, each a promising profile in success.

The Third Generation includes a cohort of 29 children in Primary School, our focus to secure funding to support them through High School (Grade 12).

OUR PROGRAMS

HEALTH

- Comprehensive health insurance plan
- Weekly GP visits for health monitoring
- Regular ear, eyes and dental check-ups

NUTRITION
